

Our Secret Melody

(music and lyrics by Antti Nissilä)

Some sweethearts carve their names together
on every bench in the park, hmm..

and, I guess, every time they see that "I heart U",
they believe, that their love will be true.

But you and I won't forget
the tune we heard on the day we met.
And when we sing our secret melody,
I know you'll always remember me.

Some sweethearts laugh and smile together
in those funny black-and-white photographs, hmm...

and, I guess, every time they see them on their wall,
a million memories they will recall.

But you and I won't forget
the tune we heard on the day we met.
And when we sing our secret melody,
I know you'll always remember me.
